

O.D. Butler Forage Field Day

The O.D. Butler Forage Field Day is scheduled for Friday, May 19th at the Camp Cooley Ranch Division of Circle X Land & Cattle Company. Registration for the event will begin at 8:00 am. The GPS address is 4297 Camp Cooley Ranch Rd, Franklin, TX.

This year's field day should have something to offer for everyone. The morning program will feature concurrent sessions addressing: Avoiding Expensive Hay Loss; Ryegrass & Grass bur Control; and Utilization of Agricultural Lime to Correct Acidic Soils.

The field day will also feature more than twenty Ag Industry booths. Sufficient time will be given for participants of the field day to visit booths. The booth sponsors will also donate items to be given away as door prizes throughout the day.

A catered roast beef lunch will be followed by a discussion focusing on laws and regulations related to feral hog management/control. After the lunch program, we will move back outside for the afternoon portion of the program.

The afternoon program will feature several hay equipment companies demonstrating and discussing some of their equipment. The latest equipment used for cutting, raking and baling hay. Excellent opportunity for hay producers to see and compare equipment first hand! This should be a very interesting part of the day for most producers especially if you plan to buy or trade any hay equipment soon.

Producers will receive three CEU's toward renewal of the pesticide license for participating in the program. The program will conclude around 4:00 pm with closing remarks and the final door prize drawings.

Please call 254-883-1410 to pre-register. We need you to call and register so we can get an accurate count for lunch. The registration fee of \$25.00 can be paid at registration from 8:00 am to 9:00 am on Friday, May 19th. Anyone needing special assistance to participate in this event should contact Edward Schneider at 979/828-4270 at least 3 days in advance so accommodations can be arranged.
